

10 REASONS TO USE HAIRCHECK®

1. **HAIR LOSS:** Hair loss affects an estimated 75% of men. Two-thirds of women will have some form of hair loss in their lifetime. The chances of having hair loss are very high!
2. **SAVINGS:** How much are you spending each month on hair growth products? 180 billion is spent worldwide...each year. **A simple HairCheck measurement will save you valuable time and money.**
3. **PRECISION:** HairCheck is a **patented device** that generates a precise, scientific measurement of hair loss, hair growth and “how much hair” is present in an area of scalp.
4. **KNOWLEDGE:** Using a hair growth product **without measuring its effectiveness** is the same as going on a weight loss program without using a scale!
5. **HEAD START:** HairCheck can detect thinning, 10 to 15 years before it’s visible to the naked eye. **By starting treatment early, the visible effects of balding can be delayed or prevented.**
6. **IMMEDIATE:** On **your first visit**, you can find out how much hair you have and how much hair you’ve lost.
7. **RESULTS:** Because HairCheck provides quantitative evidence on whether or not your treatment is working, you can switch from one product to another until you **find the one that’s right for you.**
8. **WOMEN:** HairCheck can actually **detect and measure hair breakage**...an underappreciated cause of hair loss in women.
9. **PEACE OF MIND:** HairCheck can **answer almost every question you might have** regarding hair loss and hair growth.
10. **EXCLUSIVE:** HairCheck is the **one and only scientific method** capable of measuring hair loss and growth – outside of a research laboratory. A HairCheck can be performed in 5 minutes and not a single hair is cut.
